

IAG/AIG Working Group on *small*CATCHMENTS

4th International Seminar on Small Catchments Dynamics: Connectivity in Time and Space

Israel, 22-25 November 2010
(1st Circular)

Dear Colleagues,

We are pleased to announce that the 4th International Seminar on Small Catchments will be held in Israel in 2010 (Monday 22 November - Thursday 25 November 2010). The Seminar will be organized by the Soil Erosion Research Station together with *small*CATCHMENTS Working Group of the International Association of Geomorphologists.

The seminar will explore different aspects of landscape connectivity in small catchments:

- Water, sediment, nutrient & contaminant delivery and storage in natural and disturbed systems
- Signals of climate change and their impact on hydrological connectivity and sediment delivery
- Formative events and their impacts
- Hillslope-channel coupling and decoupling

Kind regards,

Organizing Committee of the Seminar
Roey Egozi
Judith Lekach

Chair of the IAG WG on Small Catchments
Andrzej Kostrzewski

Organizers:

International Association of Geomorphologists IAG/AIG, WG *small*CATCHMENTS
The Soil Erosion Research Station, Ministry of Agriculture and Rural Development, Israel

Venue:

A 4 day roving workshop that will take place in Israels coastal and arid regions.

Preliminary program:

- 22 of November – registration, paper and poster sessions
- 23 of November– field trip: Extreme flood events & river restoration
- 24 of November – paper and poster sessions
- 25 of November – field trip: Arid catchments & soil conservation

Presentations:

- Oral paper – 15 minutes and 5 minutes discussion
- Posters – 5 minutes

Abstracts of papers and posters:

- 300 word limit
- MS Word, Ariel 12 pt., single, justified
- Submission by 15, June 2010
