

International Association of Geomorphologists (IAG)

**CALL for IAG GRANTS**  
**for the 10th International Conference on Geomorphology**  
**Geomorphology and Global Change**  
**Coimbra, Portugal, 12-16 September 2022**

The International Association of Geomorphologists offers a number of grants to favour the participation of **Young Geomorphologists\*** who are willing to take part in the *10<sup>th</sup> International Conference on Geomorphology* (Coimbra, Portugal, 12-16 September 2022) and related *Intensive Course for Young Geomorphologists* (Guimarães, Northwestern Portugal, 17-20 September 2022).

Most grants are offered to Young Geomorphologists from less-favoured countries worldwide (with a Purchasing Power Parity below **22,000** international dollars, according to the World Development Indicators database, World Bank, referring to 2019).

For details see <http://databank.worldbank.org/data/download/GNIPC.pdf>. For countries with unavailable PPP in international dollars for 2019, please refer either to the US dollars column or to tables released in previous years by the World Bank.

*Applications from candidates who already achieved one or more IAG grants totalling 500 euros or more in the past 3 years will not be eligible.*

The funds allocated are **15,000 euros** from the IAG plus **6,000 euros** from the European Geosciences Union (EGU) and **1,500 euros** from the French Geomorphology Group (GFG). In recognition of the outstanding research carried out by the French geomorphologist Jean Tricart (1920-2003) in Latin America, Africa and Asia, one of the grant holders from these regions will be designated as the *Tricart Scholar*.

The Conference on Geomorphology will take place in Coimbra, Portugal). It is organized by [IAG](#) and [Portuguese Association of Geomorphologists \(APGeom\)](#), co-organized by the [Centre of Studies in Geography and Spatial Planning \(CEGOT\)](#), the [Department of Geography and Tourism \(University of Coimbra\)](#) and the [Department of Earth Sciences \(University of Coimbra\)](#). It is co-sponsored by the EGU. It is open to all scientists and practitioners, it will include scientific sessions, keynote lectures as well as an *Intensive Course for Young Geomorphologists* dealing with "**Geomorphological changes in fire affected landscapes: field and laboratory techniques for soil erosion analysis**". Field trips will be arranged in various parts of Portugal and neighbouring countries, before, during and after the Conference.

For further information on the Conference, please visit the IAG website <http://www.geomorph.org/> and the Conference website <https://www.icg2022.eu/>

The IAG is willing to help Young Geomorphologists to attend to the Conference by providing a financial support. The amount of the grants will depend on the applicant's place of residence and estimated financial need. Applicants should have a special interest and research experience in the themes of the Conference, to be proved by their CV.

With the support of:

GRUPE FRANCAIS DE  
GÉOMORPHOLOGIE

## International Association of Geomorphologists (IAG)

Candidates for GRANTS are requested to submit the following documents

**before 15 May 2022:**

- Application form (see below)
- Copy of valid passport or identity card
- Short CV (maximum 2 pages long), including up to 10 papers related to the Conference themes
- Abstract submitted (or to be submitted) to the Conference.

The above-mentioned documents should be submitted to the IAG grant office (Prof. Marta Della Seta) at [IAGgrantoffice@gmail.com](mailto:IAGgrantoffice@gmail.com) (please specify IAG Grant – ICG COIMBRA 2022) in the subject of the accompanying e-mail).

The selection of candidates will be carried out by a Commission appointed by the IAG Executive Committee. For further information on the IAG Grants, feel free to contact the IAG Training Officer. Priority will be given to applicants who intend to participate in the Intensive Course for Young Geomorphologists.

Marta Della Seta  
IAG Training Officer

**\* Undergraduate or postgraduate - Masters/PhD students or scientists who have received their highest degree, i.e. BSc, MSc, or PhD, within the past seven years. *Provided parental leave fell into that period, up to one year of parental leave time may be added per child, where appropriate.***
