

GeomorforUM

WHERE PEOPLE & LANDSCAPES CONNECT

Are you interested in what shapes our Earth's surface and how these landscapes interact with climate, hazards, the biosphere, and people?

Join us in celebration of International Geomorphology Week for our first meeting of **GeomorFORUM** – a biannual meeting to inspire unique collaborations on campus by bringing together UofM faculty and graduate students using geomorphic perspectives in their research.

Monday, February 27th from 10:30 – 11:30 am
Where: Johnson Hall 106

Coffee and snacks will be provided!
