## Maps for Yunnan province and the workshop

## Lake Fuxian & The Fuxianhu Station of Plateau Deep Lake Research

The first-deepest plateau lake in China, max ~158 meters deep, water area 216 km<sup>2</sup>, catchment 1053 km<sup>2</sup>.

## The Chengjiang Fossil Land Museum & Paleontology Research Station (NIGPAS)

China's first and the only Fossil World Heritage in Asia, the core area for the preservation of Chengjiang biota fossil, a perfect witness to the rapid radiative evolution of life on early Cambrian marine ecosystems 518 million years ago.

## *Stone Forest World Geopark*

A spectacular set of limestone groups and the representative of south China's karst landscape. Known since the Ming Dynasty (1368-1644 CE) as the "First Wonder of the World", it is one of the most important attractions of Yunnan.
