

# **Geomorphology and Society Working Group**

## **Past activities:**

A meeting proposed and approved for the EGU General Assembly 2022 was held on 25 May 2022 with an online option. Due to the COVID-19 pandemic and hybrid mode of the EGU only very few members participated on-site at the 2022 EGU activities. A further event was held under the umbrella of the International Mountain Conference (IMC) 2022 in Innsbruck, Austria. Both meetings aimed at discussing possible future activities, WG overall aims and a commitment of the WG members to more actively engage.

## **Forthcoming activities:**

Alongside the 2023 EGU General Assembly in Vienna, a meeting of the joint Working Group/Commission of the International Association of Geomorphologists and the International Geographical Union on "Geomorphology and Society" will take place. During this meeting, planned activities and possible participation in research calls will be discussed. The meeting is scheduled for 25 April 2023.
